POLAR Tutorial

Find patients aged 70 and over with 5 or more medications, without a home medication review in the last 12 months.

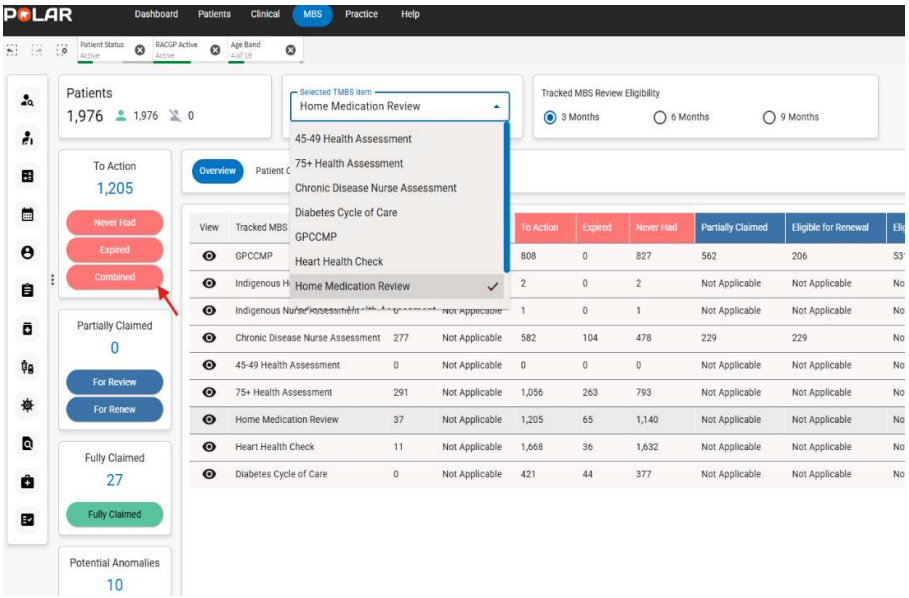

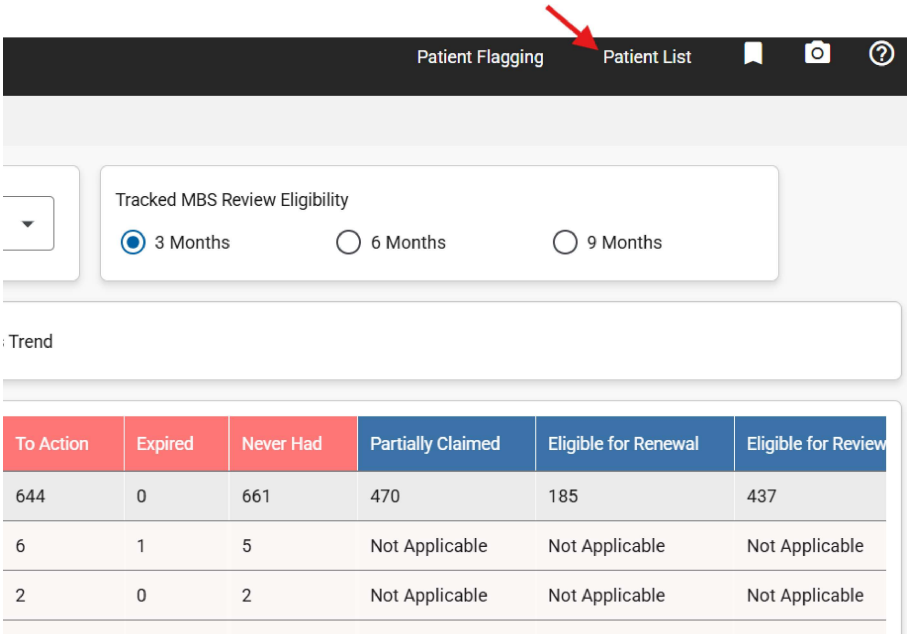

More information on Tracked MBS can be found through the POLAR Knowledgebase.

Start by selecting the Quick Filter for RACGP & Active Patients. This ensures that ONLY patients that have had three visits (across multiple days) in the past 2 years and are active in your clinical software are selected.	
Select the Patient demographics on the left and select Age band to choose ages 70 and above.	

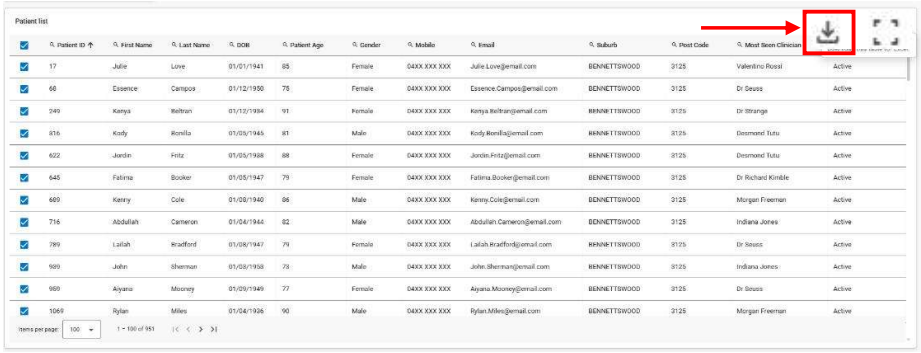

POLAR Tutorial

On the top row, select MBS, and then choose Tracked MBS	
Choose Home Medication Review	

POLAR Tutorial

Select Combined to select patient who never had or have an expired Home Medication Review	
Navigate to the Patient List top right-hand corner.	

To Action	Expired	Never Had	Partially Claimed	Eligible for Renewal	Eligible for Review
644	0	661	470	185	437
6	1	5	Not Applicable	Not Applicable	Not Applicable
2	0	2	Not Applicable	Not Applicable	Not Applicable

You now have your list of patients. You can then Export the list by selecting the download icon.	
Then add a file name, select the format and click on export. This will create a file that will be saved to your computer to assist with your QI activity.
